

IP: OUR CORE ASSET

The idea for now:

Brief Solutions Ltd (<https://brief-ds.com>) is intended as the IP-holding company. A product may be incorporated separately, licensing IP from Brief Solutions Ltd, to silo the bankruptcy risk. Any of these companies are open to investment.

IP: THE KEY TO CONTROLLING COST

Our R&D projects in the pipeline, with differing feasibility:

Re-design the front end UI for the predictive technology

Operating System: Linux -> Plan 9-like, with many “cloud-like” features in a small build

Neural Network framework: TensorFlow/PyTorch -> a pure autodiff framework, reduces install size from 1GB to 100KB

Generative AI: ChatGPT -> an architecture that generates one or few “thoughts” at once, energy-efficient
